

NOW HIRING!!!
Experienced Trauma Clinician for Children and Families

The Trauma Center at Justice Resource Institute has an opening for a part- or full-time clinician in our Brookline, MA office. We are looking for a committed and flexible clinician interested in joining a stimulating and supportive community of professionals, dedicated to serving children, adults and families impacted by trauma & life adversity, and receiving extensive training opportunities to expand their expertise.

This position will include a combination of fee-for-service and salaried hours, and the clinician will hold a position on an exciting new mobile comprehensive clinical treatment team (CTTT), providing trauma-informed, evidence-based treatments to diverse groups in the greater Boston region. In the role of fee-for-service clinician, staff would have the opportunity to work with children, families, and adult clients in trauma-focused outpatient treatment in a vibrant community of like-minded clinicians in our Brookline office. As a compliment to the more traditional outpatient role, clinicians serving on a CTTT team will work with JRI and external partner programs to provide onsite (in various metro Boston areas) clinical support and consultation in identifying and implementing evidence-based trauma treatment models best suited to the population served in each relevant partner program. The CTTT role also includes ongoing training, tailored treatment planning, and sustainability planning to support the needs of trauma-informed partners.

Eligible candidates must:

- Have at least 2 years of post-school/training experience conducting therapy, have worked in an outpatient setting for at least 2 years, and have worked with traumatized families and children
- Be an MA-licensed LICSW, LMHC, Ph.D. or Psy.D.
- Formal training and experience using one or more of the following trauma interventions is highly desirable: Attachment Regulation and Competency (ARC), Trauma-Focused CBT (TF-CBT), and/or Child Parent Psychotherapy (CPP).
- Experience/training in the use of CPT, EMDR, DBT, IFS, Sensorimotor Psychotherapy, and/or Attachment Focused Treatment are beneficial.

The Trauma Center offers you the following:

- Weekly Supervision with a Trauma Specialist
- Weekly Clinical Team Meeting
- State-of-the-Art Training, particularly in child and family trauma-focused EBP models
- Free and reduced-cost Seminars and Conferences
- Opportunities for Research
- Highly skilled Team members
- Competitive Fee-For-Service Reimbursement

To apply, send a letter of interest, resume/CV, and 2-3 letters of recommendation to Jana Pressley, Psy.D., Director of Training and Professional Development or by email at jpressley@jri.org.

JRI is an equal opportunity employer and actively seeks candidates from diverse backgrounds including women, communities of color, the LGBT community and people with disabilities.
