
**About the Training Institute
Of
The Trauma Center at JRI**

The Training Institute of the Trauma Center at Justice Resource Institute offers extensive local programming, including an academic-year Trauma Certificate Program for mental health providers, an annual conference, a monthly lecture series, and numerous advanced workshops and clinical consultation groups. In addition, senior staff members are available to provide local, regional and national training workshops on a wide range of specialized topics, including in-service training for school and community agency staff.

For more information about The Training Institute of The Trauma Center at JRI, contact Dr. Margaret Blaustein, Director of Training and Education, at mblaustein@jri.org.

Continuing Education:

The Justice Resource Institute (JRI) is approved by the American Psychological Association to sponsor continuing education credits for psychologists. Continuing education credits will also be offered for this conference for Massachusetts social workers and licensed mental health counselors. JRI maintains responsibility for this program and its content. JRI designates this activity for **11** CE credits.

Our Mission Statement

The Trauma Center's mission is to help trauma survivors re-establish a sense of safety and predictability in the world, and to provide them with state-of-the-art therapeutic care during the process of reconstructing their lives.

The Training Institute of The Trauma Center at JRI Presents

About the presenters:

Bessel van der Kolk, M.D.,

Medical Director and founder of The Trauma Center, has been active as a clinician, researcher and teacher in the area of posttraumatic stress and related phenomena since the 1970s. His work integrates developmental, biological, psychodynamic and interpersonal aspects of the impact of trauma and its treatment. His book

Psychological Trauma was the first integrative text on the subject, painting the far ranging impact of trauma on the entire person and the range of therapeutic issues which need to be addressed for recovery. Dr. van der Kolk has taught at universities and hospitals across the United States and around the world, and has published extensively on the impact of trauma on development. He was co-principal investigator of the DSM-IV Field Trials for PTSD, past president of the International Society for Traumatic Stress Studies, a founding member of the Steering Committee of the National Child Traumatic Stress Network, and is currently working with colleagues to bring a Developmental Trauma Disorder diagnosis to the DSM-V.

Janina Fisher, Ph.D.

is a licensed Clinical Psychologist and Instructor at the Trauma Center, an outpatient clinic and research center founded by Bessel van der Kolk. Known for her expertise as both a clinician and consultant, she is also past president of the New England Society for the Treatment of

Trauma and Dissociation, an EMDR International Association Credit Provider, a faculty member of the Sensorimotor Psychotherapy Institute, and a former Instructor, Harvard Medical School. Dr. Fisher lectures and teaches nationally and internationally on topics related to the integration of the neurobiological research and newer trauma treatment paradigms into traditional therapeutic modalities.

FRONTIERS OF TRAUMA TREATMENT

The Trauma Center at JRI is proud to announce a ground-breaking conference hosted by two leaders in the field of trauma treatment: Dr. Bessel van der Kolk and Dr. Janina Fisher. This training event will explore biological and psychological bases of trauma and introduces innovations in trauma treatment.

Day One. Frontiers of Trauma Treatment: The Dialogue Between Mind and Brain. Dr. van der Kolk will introduce foundations for understanding the impact of acute and chronic traumatic stress exposures on children and adults and review the complexity of adaptation to trauma, including the biological, physiological, and neurological impact of trauma exposure and extended trauma response.

Day Two. Frontiers of Trauma Treatment: Working with the Somatic Legacy of Trauma. Dr. Fisher will address stabilization techniques for complexly traumatized individuals, with an emphasis on the regulation of affect and experience, and will provide an overview of physiological and body-based strategies for working with trauma-related symptoms.

Conference information:

- Dates– Mon. & Tues., March 17 and 18, 2008; 9:30am– 4:30pm
- 11 CE Credits (5.5 each day)
